

# No More Messiah

Pertness

I wish he could talk to me  
Read my own memory  
Release me from all the pain  
You'll be the only one

And now, he's back, I'm on track  
Sunshine will replace the dark  
Hypnotized by his words  
I will be healed to death

No, no more messiah tale  
No evil will prevail  
No, no more messiah  
No more liar

My pain becomes worse and worse  
The answer has been blown away  
I was riding the last thread of hope  
No I, I have gone insane

I wish I could feel the sun  
Read my own memory  
Waiting for the next defeat  
I'll be the face of death

No, no more messiah tale  
No evil will prevail  
No, no more messiah  
No more liar

No, no more messiah tale  
No evil will prevail  
No, no more messiah  
No more liar

No, no more messiah tale...
