

Before the Penance

Pestilence

A life without a personality
The inner transformation
Your prayers in mendacity
Betrayal of the denomination

Before the penance taken away your sins which you regret
Your impiety is lost and now you'll worship 'till the death
Go in peace, live free of sin and you will see the light
Abandon your evil lusts and pleasure, come to the almighty

Please, Lord, forgive me
A sinner in disguise
Commit unholy blasphemy
Your confessions are nothing but lies

Falling into evil ways proves your apostasy
Your faith is weaker than your bad idiosyncrasy
Your viciousness remains, it's something it won't leave your soul
Life exists of deceit and treason, you will end below

The things you do and see
Insanity of your disposition
Your senseless way of life repeating itself
Before the penance

Your habits and behaviour
In insipidity
Contraction of your mind
Confess reality

Face the things you've done
Saved by charity
Revive without doing wrong
Live in uncertainty

Redemption of your sinfulness
Reiteration of memories becoming reality
Gratitude by your falseness
The atheist in you, indomitability
Allurement of evil is a vexation
After the penance I am free
A futile expectation
Live in invariability

Face the things you've done
Saved by charity
Revive without doing wrong
Live in uncertainty

Your habits and behaviour
In insipidity
Contraction of your mind
Confess reality

Face the things you've done
Saved by charity
Revive without doing wrong

Live in uncertainty
