

# Rent

Pet Shop Boys

**Ami**                    **F**                    **G**                    **Emi**  
You dress me up, I'm your puppet - You buy me things, I love it

**Ami**                    **F**                    **G**                    **Emi**  
You bring me food, I need it - You give me love, I feed it

**Ami**                    **F**                    **G**                    **E**                    **Ami**  
And look at the two of us in sympathy with everything we see  
                                 **F**                    **G**                    **C**  
I never want anything, it's easy - You buy whatever I need

**F**                    **G**  
R: But look at my hopes, look at my dreams  
                                 **E**                    **F**                    **G**                    **Ami**  
The currency we've spent - I love you, you pay my rent  
**F**                    **G**                    **Ami** **F**                    **G**  
I love you, you pay my rent

**Ami**                    **F**                    **G**                    **E**                    **Ami**  
You phone me in the evening on hearsay and bought me caviar  
                                 **F**                    **G**                    **E**                    **C**  
You took me to a restaurant off Broadway to tell me who you are

**F**                    **G**  
R: We never-ever argue, we never calculate  
                                 **E**                    **F**                    **G**                    **Ami**  
The currency we've spent - I love you, you pay my rent  
**F**                    **G**                    **Ami** **F**                    **G**                    **Ami**  
I love you, you pay my rent - I love you, you pay my rent

**Ami**                    **F**                    **G** **Emi**  
I'm your puppet I love it

**Ami**                    **F**                    **G**                    **E**                    **Ami**  
And look at the two of us in sympathy and sometimes ecstasy  
                                 **F**                    **G**  
                                 **E**                    **C**  
Words mean so little, and money less when you're lying next to  
me
