

# Glue

Pete Francis

All the care you took  
When the wall was fading  
Before you were hit  
It was me you persuaded  
But I'm not this ordinary guy  
No, I'm not this ordinary guy

What was that? You said to me  
I'll never know build a ship  
Make it quick  
Never slip  
It's not me, no  
That was never me

Oh, no here come the live bulls  
Oh, no where did the bees go?  
Oh, no here come the live bulls  
Oh, no where did the bees go?

Am I in the contest too?  
A broken man needs lots of glue  
But you could fly away  
On an airplane  
No trace of me  
Nothin' to explain  
But I'm not this ordinary guy  
No, I'm not this ordinary guy

What was that? You said to me  
I'll never know  
Build a ship, make it quick  
Never slip  
It's not me you know  
It was never me  
Oh no here come the live bulls  
Oh no where did the bees go?  
Oh no here come the live bulls  
Oh no where did the bees go?

I'm gonna hunt you down  
I'm gonna steal your crown  
You bet you, baby

Oh no here come the live bulls  
Oh no where did the bees go?  
Oh no here come the live bulls  
Oh no where did the bees go?
