Burning Up

Pete Murray

I'm not sure if I'm standing up or falling down
One look at you and I'm on higher ground
My head is blocked and my heart can't feel the sound
I'm burning up burning up never coming down
I'm burning up burning up never coming down

I'll be coming home
To my lady
I'll be coming home
To my lady

No more taking me down
Trust me I'm showing you how
Stay one step ahead of the crowd
Be my lady

Come on and use your heart (use your heart now)
Come on and use your heart (use your heart now)
Come on and use your heart (use your heart now)
Come on and use your heart (use your heart now)

I'll be waiting for you
I'll be waiting for your love
I'll be waiting for you
I'll be waiting for your love
I'll be waiting for you
I'll be waiting for your love
I'll be waiting for you
I'll be waiting for your love

What I know, what I've learned and what I've found
When love hits you hard it makes you bound
It can lift you up but it won't make a sound
I'm burning up burning up never coming down
I'm burning up burning up never coming down

I'll be coming home
To my lady
I'll be coming home
To my lady

No more taking me down
Trust me I'm showing you how
Stay one step ahead of the crowd
Be my lady

Come on and use your heart (use your heart now)
Come on and use your heart (use your heart now)
Come on and use your heart (use your heart now)
Come on and use your heart (use your heart now)

I'll be waiting for you
I'll be waiting for your love
I'll be waiting for you
I'll be waiting for your love
I'll be waiting for you
I'll be waiting for your love

I'll be waiting for you
I'll be waiting for your love
