

## Colour

Pete Murray

Last night when I was coming down  
Oh the steamy night, I was blazed  
Confusion was all around  
And there was fear I could not be saved

But you brought me round  
When all else had failed  
And I know  
My love now sails

And you colour my way  
And you colour my way  
And you take me so high  
Put the spark in my day

While my bridges were burning down  
I saw you pass along my way  
My defences and legal ground  
Well they were fast falling away

But you brought me round  
When all else had failed  
And I know  
My love now sails

And you colour my way  
And you colour my way  
And you take me so high  
Put the spark in my day

But you brought me round  
When all else had failed  
And I know  
My love now sails

And you colour my way  
And you colour my way  
And you take me so high  
Put the spark in my day

And you colour my way  
And you colour my way  
And you take me so high  
Put the spark in my day
