

# Hold Me Steady

Pete Murray

Love hope  
Will you please stay  
Hurt pain  
You take it away  
Breath life  
You add to my day  
One love  
I heard you say

Oh... take me I'm ready  
Hold me close now till my legs are steady  
Catch me now, now that I'm falling  
For your world and all that we are

Touch feel  
We're taking the night  
Cause the fire in your eyes sets me alight

Oh... take me I'm ready  
Hold me close now till my legs are steady  
Catch me now, now that I'm falling  
For your world and all that we are  
For your world and all that we are

You got me singing out  
You got me singing out to the world  
You got me praying loud  
You got me praying loud to your world

Oh... take me I'm ready  
Hold me close now till my legs are steady  
Catch me now, now that I'm falling  
For your world and all that we are

Oh... take me I'm ready  
Hold me close now till my legs are steady  
Catch me now, now that I'm falling  
For your world and all that we are  
For your world and all that we are
