

Home

Pete Murray

I've got you now
I've got your soul
Today has arrived
Coming down
Lets take you home

It's been too long
We've seen some time
This moment now we live
It's yours and mine

Cause all the highs and all the lows
Won't make me run won't make me go
Every day that we're together
We learn to love a little better
And if you stop than I can go
And if I'm blind your light will glow
As long as we're together we'll know
We're home

There's that smile
To change your day
Last for a while
Come on now
Take me away

Cause all the highs and all the lows
Won't make me run won't make me go
Every day that we're together
We learn to love a little better
And if you stop than I can go
And if I'm blind your light will glow
As long as we're together we'll know
We're home

We're home
We're home
We're home
We're home

Cause all the highs and all the lows
Won't make me run won't make me go
Every day that we're together
We learn to love a little better
And if you stop than I can go
And if I'm blind your light will glow
As long as we're together we'll know
We're home

Cause all the highs and all the lows
Won't make me run won't make me go
Every day that we're together
We learn to love a little better
And if you stop than I can go
And if I'm blind your light will glow
As long as we're together we'll know
We're home
