

Long Ride

Pete Murray

I see your long dark hair
Your sitting on the stairs and I know
I take your shotgun glare
It's then I nap my air then I fold
I'm in your magic place
Feeling on your embrace then I know
You got me in this state
I'm just about to break then you go

It's been such a long ride
But I'm almost with you now
Lay your body down
And the time's right
To take us heaven bound
Make that loving sound

And we're home
Yeah we're home
We're home
We're home

With your long white coat
Your walking with great hope and you know
You got my engine there
I'm chewed up with despair now I'm bold
Don't ever leave this place
Your far too full of grace as we hoped
You got me in this state
I'm just about to break please don't go

It's been such a long ride
But I'm almost with you now
Lay your body down
And the time's right
To take us heaven bound
Make that loving sound

It's a long ride
But I'm almost with you now
Lay that body down
And the time's right
To take us heaven bound
Make that loving sound
And we're home

It's been such a long ride
But I'm almost with you now
Lay your body down
And the time's right
To take us heaven bound
Make that loving sound

It's a long ride
But I'm almost with you now
Lay that body down
And the time's right
To take us heaven bound

It's been such a long ride
But I'm almost with you now
Lay your body down
And the time's right
To take us heaven bound
Make that loving sound

It's a long ride
But I'm almost with you now
Lay that body down
And the time's right
To take us heaven bound
