

# Long Way To Go

Pete Murray

East coast to the west coast  
I'm in another daze  
Your fever is burning me  
Into a tropical haze  
Were you going to send me  
To unleash your load  
Or will you leave me broken  
With nowhere to go

You got to let me know  
Cause I'm falling for you babe  
And I got a long way to go  
You got to let me know  
Cause I'm falling for you babe  
And I got a long way to go

I'm going to run until midnight  
Going to sleep all day  
The red moon is rising  
It's going to make me pay  
Whether you are the winter  
Whether you are the spring  
You put the summer above me  
And our love will sing

You got to let me know  
Cause I'm falling for you babe  
And I got a long way to go  
You got to let me know  
Cause I'm falling for you babe  
And I got a long way to go

You got to let me know  
Cause I'm falling for you babe  
And I got a long way to go  
You got to let me know  
Cause I'm falling for you babe  
And I got a long way to go

It's your elevation that  
Takes me to this state  
The one love you gave me  
I just can not replace  
You hold the lightning  
And I'll hold the rain  
I'll stand before you  
And we'll have the world to gain

You got to let me know  
Cause I'm falling for you babe  
And I got a long way to go  
You got to let me know  
Cause I'm falling for you babe  
And I got a long way to go

You got to let me know  
Cause I'm falling for you babe

And I got a long way to go  
You got to let me know  
Cause I'm falling for you babe  
And I got a long way to go  
A long way to go
