

Shakes

Pete Murray

Let me tell you something girl
You got the world at your feet
And you know you're something magical
Cause your taste is so sweet

You got to hold it, got to make it
Got to love it, got to shake it
Until your love is complete
It will bag you, it will drag you
It may pick you up and tag you
But boy what a treat

So hold me once and hold me forever
I'll be your love you'll be my treasure
Your fever raising up my weather
You're burning me right up

And if I miss a beat in this world
You're the one who's always kind
If my sunny day ever turns
You teach the grey how to shine

You can make me, you can shake me
You can pick me up and take me
Into your rainbow eyes
It will bag you, it will drag you
It may pick you up and tag you
But boy what a surprise

Hold me once and hold me forever
I'll be your love you'll be my treasure
Your fever raising up my weather
You're burning right up

Oh and I can't turn this love down
Oh we gotta make this some how

Hold me once and hold me forever
I'll be your love you'll be my treasure
Your fever raising up my weather
You're burning me right up
