

# Take Me Down

Pete Murray

Got my bags packed  
Rocket chief says  
Guess I'm flying to the moon and back

Yes it's true  
Always want more time with you  
Take me bound take me tight  
Hold me one more time before this night is through  
Thank God I'm more than friends with you

So take me down  
To where it all began  
And let yourself come over me  
With all the love that you have  
Let me know  
Can we stay just one more day  
In this moment that we've saved  
So we don't let this time away

Took a walk  
Bird in hand  
Caught your eye with one more glance  
Then I knew  
My happiness belongs to you

So take me down  
To where it all began  
And let yourself come over me  
With all the love that you have  
Let me know  
Can we stay just one more day  
In this moment that we've saved  
So we don't let this time away

Ooh ooh just hold on  
Before the time we have is gone

So take me down  
To where it all began  
And let yourself come over me  
With all the love that you have  
Let me know  
Can we stay just one more day  
In this moment that we've saved  
So we don't let this time away

Take me down  
To where it all began  
And let yourself come over me  
With all the love that you have  
Let me know  
Can we stay just one more day  
In this moment that we've saved  
So we don't let this time away
