

## This Pill

Pete Murray

Two years and I feel like I'm over this pill  
Is there a reason I wonder  
And still, you just light up the way

I burn like the sunsets above me two feet  
My eyes are so tired I can't sleep  
And it's only a day

And all of this heart is waiting for you  
And all of this mind falls apart for you

Two years and I feel like I'm over this pill  
Is there a reason I wonder  
And still you just light up the way

Your soul seems to guide like a bird  
And still even though with no word  
I will hold a place for your love

Two years and I feel like I'm over this  
Is there a reason I wonder  
And you still just laugh and wave
