

# We'll Be the Fire

Pete Murray

I'll be waiting for you tonight  
And I'll be all of your morning light  
Take me and make me feel alright  
Please, show me a sign

Wanting to be the one to fix your day  
Future, it will come and find a way  
Remember all these things we used to say

I think that we should fly right now  
Leave all our troubles in the cloud  
Trust me, I'm going to show you how  
Please, show me a sign

Wanting to be the one to fix your day  
Future, it will come and find a way  
Remember all these things we used to say

So take your time  
I'll be waiting for you  
You're be just fine  
I'm gonna carry you through  
We'll be the fire  
Let's keep it burning for two  
And if we part  
We'll always find the way home again  
We'll always find the way home again  
We'll always find the way home again  
...
