

Wouldn't It Be Good

Pete Murray

Nobody feels any pain no more
And our love won't die or change no more
Wouldn't it be good to stay so high and help the world as we pass by
Wouldn't it be nice when we come down to float as one above the ground
So nobody feels any pain no more

Look where we've come from you and I
Our world has changed so much it's time

Time for a better change right now
Let's light the night
And make each other high right now

Nobody feels any pain no more
And all our love that we lost will be gone no more
Wouldn't it be good if this was the way, no poverty no greed in the day
Wouldn't it be nice to be so kind, put others first and ourselves behind
So nobody feels any pain no more

Look where we've come from you and I
Our world has changed so much it's time

Time for a better change right now
Let's light the night
And make each other high right now

Time, time for a better change right now
It's time, time, time for a better change right now
Let's light the night, night, night
And make each other high right now
