

## Chi-Town Do It

Pete Rock

She knew me from the city, she knew I was witty  
She knew I had power and maybe some cents like 50  
She had a couple cats, I was trying to get the kitty  
And if I touch down, I just might do the gritty  
This just in  
I been on my on my Jefferson's bussin' raps  
Rappers she said she didn't trust 'em  
And really didn't trust men, I guess we on the cusp then  
Go get your mezcal and we don't have to Russ-ian  
Ukraine's in the sky, disdain in the eye  
That came from another guy, I ain't the other guy  
I wanna love you, the way I love the Chi  
She showed me her ex, I ain't have to wonder why  
I ain't gon' down no other niggas, yo, that's goof troop shit  
Let's sample the day and we can loop it  
Filter the worst, and save the best parts  
There's power in the now, just like Eckhart  
And life can take a toll on you  
If we fall in love, I'll be holding you up  
Watch this rap niggas get all up in your mind  
You like ice cream, I like wine  
We both refined, forget the red carpet  
Our stars align, forever is where we are in time  
This ain't foreplay, I see you on your grind  
You mean the world to me, of course the world is mine

I'm from Chicago  
Come and talk to me, you got me feenin'  
I want the average Joe to see  
You my lady, forever, or maybe just the night  
We could be crazy in love 'cause shit is crazy in life  
It's crazy when I met you, I knew that I would get you  
I said, "Yo, I'm Common, and you are extra special  
I can hold you down and never will I let you  
If we play our cards right, we'll be alright, I'll bet you"

Wait a minute, I stayed on Bennett, and I been it  
As the tables turn, no matter how you spin it  
At the top of my game, a gladiator  
I'm glad I ate her  
Are you not entertained?  
I ain't a lock and chain type of niggas that'll cuff you  
I'ma keep it funky, that's something I must do  
And lust you, and trust you, and touch you, and clutch you  
The bullshit is cake, and that's what we gonna cut through  
Summon the queen, you dope and I'm becoming a fiend  
You got me trippin like a summer routine  
All in your grill, we meet and unthawing it still  
Making love is like music. It's all in the feel  
Fly girl  
I want you under my wings  
Champion lover that could come with a ring  
That got a ring to it, you and I theme to it  
Don't be Chi  
I'm from it, and you know how we do it
