

# All Shall Be Well

Pete Townshend

You can wake deep in the night  
And know that out of sight  
A dangerous passion grows  
A force you can't oppose

In the safety of your bed  
You dream of a flaming head  
You know you've lost your heart  
You never even had a start

All shall be well  
And all shall be well  
And all manner of things  
Shall be well

All shall be well  
And all shall be well  
And all manner of things  
Shall be well

I was naked and dreamin'  
Behind locked doors  
Still hear me screaming  
Take me, I'm yours

Take me, I'm yours

Take me, I'm yours, don't offer any other option  
But one that restores this land to me  
This land where the color of love  
Is by decree, set it free

You can demand that love's defined  
Before you jump in blind  
Keep everything to plan  
So you can remain a man

You can demand that your love is defined  
Before you break and jump in blind  
You have to keep everything to plan  
Just so that you can remain a man

You have imprisoned half your soul  
You have denied the love that you hold  
Your angry heart never seems to break  
You've learned to give, but not to take

One heart divided  
Cold civil wars  
Like twenty million people crying  
Take me I'm yours

Take me I'm yours

Take me I'm yours, don't offer any other opinion  
But one that restores this land to me  
This land where the color of love

Is by decree, set it free

All shall be well  
And all shall be well  
And all manner of things  
Shall be well

You can wake deep in the night  
We'd find that out of sight  
But right under your nose  
A revolution grows
