

Dragon

Pete Townshend

As I walk out on the street
The lamps are shining bright
And the rain begins to fall
Gonna be another wet night

And I stand with my back to the wall
Waiting for your call
Then I'll know you love me
Just like you ought to do
Just like you us taught to do
Who...

So you turn on to a mirror
And the reflection of all you saw
Now the path is in front of you
Another boarded door

And I stand here a-smiling
Waiting for his call
We all know he loves us
Just like we knew he did
Right down beyond the years
And beyond the din of all

Every day the dragon comes
With its many heads
With a sword of truth in my hand
I have laid it dead

Only 'cause there's love in my heart
Just like at the start
And you and I were never apart
Just like it ought to be
Just like he made me see
Who...

As I walk out on the street
The stars are shining bright
And the ground a heavenly rose
That shines ever so bright

And I stand here in ecstasy
I look back at the tears
I have seen my Master
After all of these years
Now I know he loves me
Now I ain't got any fears
Please accept a gift of tears
Who...
