

# Join Together

Pete Townshend

When you hear the sound a coming  
Hear the drummer drumming  
I want you to join together with the band  
We don't move in any 'ticular direction  
And we don't make no collection  
Won't you join together in the band

Do you really care  
What you eat or what you wear  
We want you to join together in the band  
There's a million ways to laugh  
And every one is a path  
Come on and join together in the band

We want you to join together  
We want you to join together  
We want you to join together in the band  
Come on and join  
Come on and join  
Come on and join together in the band  
Come on and join

You don't have to play  
You can follow or lead the way  
Just want you to join together in the band  
We don't know where we're going  
But the season's right for knowing  
Come on and join together in the band  
Come on and join  
Come on and join

It's the singer not the song  
That makes the music move along  
Come on and join together in the band  
This is the biggest band you'll find  
We're so deep and we're wide  
I want you to join together in the band
