

Also, Roses

Pete Yorn

Everything I want to do
Making it hard on you
(Don't know why, don't know why)
Stealing your good ideas
Stringing along, the dogs are barking outside
(Don't know why, don't know why)

Can't stand still anymore
Came on so strong and it took me over
Scared to feel anymore
Cut my leg while trying to smell the roses

Ever since I killed nostalgia
Finally, I can live without ya, and I do
(Don't know why, don't know why)
What would make you wanna stop?
Everyone is so invisible to you
(Don't know why, don't know why)

Can't stand still anymore
Came on so strong and it took me over
Scared to feel anymore
Cut my leg while trying to smell the roses

Not like before
Not like before
Not like before
Not like before

Not like before
Not like before
Not like before
Not like before

Scared to feel anymore
Cut my leg while trying to smell the roses
Can't break free anymore
From the life it seems that we have chosen
