

Don't Keep Me Waiting

Pete Yorn

From across the table
I noticed you're there
You said it was something
You don't normally wear
And I tried too hard
Not to stare
But I think that you could easily tell

If you want it
Come and get it
I'll be right here
Don't keep me waiting
In the moment
Won't forget it
I'll be right here
Don't keep me waiting

And the night moves on
And we spoke about things
And we let our guard down
And we noticed our rings
And I saw your mind
How it made me feel
It was nice to be wanted
To have something real

If you want it
Come and get it
I'll be right here
Don't keep me waiting
In the moment
Won't forget it
I'll be right here
Don't keep me waiting

If you want it
Come and get it
I'll be right here
Don't keep me waiting
In a moment
Won't forget it
I'll be right here
Don't keep me waiting

So you wanna get lost from the start?
Somebody said the waiting is the hardest part
Say you wanna get lost from the start?
Somebody said the waiting is the hardest part

If you want it
Go and get it
I'll be right here
Don't keep me waiting
In a moment
Won't forget it
I'll be right here
Don't keep me waiting

If you want it
Come and get it
I'll be right here
Don't keep me waiting
In a moment
Won't forget it
I'll be right here
Don't keep me waiting
Don't keep me waiting
