ECT

Pete Yorn

You're going away
Not feeling again
Get high on yourself
Then cry for a friend

As long as it takes
Will it never end?
You hide from yourself
I lost you again
Lost you again
I lost you again

So much for the life you'll never know
Is it a mistake, is it a mistake? Don't tell me no

Inevitably
It comes crashing down
Start feeling the same
You sink through the ground
Lost you again
I lost you again

So much for the life you'll never know
Is it a mistake, is it a mistake? Don't tell me no
So much for the words they told you not to go
Are we out of time, are we out of time? Don't tell me no

Lost you again
I lost you again

So much for the words they told you not to go
Are we out of time, are we out of time? Don't tell me no
Are we out of time, are we out of time? Don't tell me no
