

Further

Pete Yorn

In my mind tell the story
Of a day when I was one and only
And the scene was set and the lights were low
You were burned in my eyes

Tell me why
Can ya call me?
I'll tell ya everything
It comes and goes
And the more I want it
Is it hard to get it and I
Hear the cry in your voice

The further I stand, it's moving away
The further I stand, you're moving away

In my mind, I was lonely
Got me thinkin' 'bout what you told me
And the way we were never meant to be
We were always out of time

The further I stand it's moving away (The further I stand)
The further I stand you're moving away (The further I stand)
(Don't give it away)
The further I stand it's moving away (The further I stand)
(Don't give it away)
The further I stand you're moving away (The further I stand)
(Don't give it away)
