

Golden Dream

Pete Yorn

When you find
Your golden dream
You won't need
No help from me
There won't be no time
There won't be no fear
You'll even forget what had kept you near

And though I'll be sad see you go
There won't be no pain anymore
And the waves will take you far away
To some distant place

In the center of my mind
I can see your face sometimes
When the seasons change
And the weather clear
There is no sense of doubt to why you're here

And though I'll be sad see you go
There won't be no pain anymore
And the waves will take you far away
To some distant place

(Without you)

Though I was sad see you go
We won't be afraid anymore
And oh, it's so hard to walk away
We'll meet again, in some distant place
