

I Keep Going On

Pete Yorn

Save me from a bad place
Play along
I won't say what's gone wrong
Everyone just wants to be alone with you

Tell me all the things you never say
I don't care what comes next
I'm prepared for anything that you might take from me

I keep going on
I keep going on

I'm not sure what you have said
To other people on this planet
Just don't be afraid to tell me how you really feel

Sometimes I just wanna get away from
All the strangers in my path
I don't really know what it all means
I think it's just engrained

I keep going on
I keep going on

Through the same city at night
Towards a new mornin' sunrise

Save me from a bad place
Play along
I won't say what's gone wrong
Everyone just wants to be alone with you
