Opal

Pete Yorn

There's no turnin' back
You go out into the desert
And see an old friend
You love when you're together

And breakin' the hearts of everyone
To get away from another love
Leaving 'em all in a state of awe

There's nowhere to run
You keep walkin' on and on
I don't stand a chance
To get away into the daylight

Breakin' the hearts of everyone
To get away from another love
Leaving 'em all in a state of awe

Breakin' the hearts of everyone
To get away from another love
Where do you go when you know they don't care?

And where will u go when you've fallen in love
And you're scared of everything
Where will you go when you're walking alone
And you're overthinkin' things

The color of your hair, you can change it
Make a change
You can go anywhere your heart treads
You can go anywhere your heart treads
You can go anywhere your heart treads
