

POV

Pete Yorn

I will get you away from here
In good time, you took it too far, my dear

I'm waitin' for it, I'm waitin' for you to come back again
I'm takin' you home, takin' you home for the last time

And I'm goin' away from here
You come talk and told me what I'd done wrong
I don't think I'll ever change my mind
And I don't think you will ever see my point of view

I will get you away from here
In good time, you took it too far, my dear

I'm waitin' for it, I'm waitin' for you to come back again
I'm takin' you home, takin' you home for the last time

And I'm goin' away from here
You come talk and told me what I'd done wrong
I don't think I'll ever change my mind
And I don't think you will ever see my point of view

My point of view
Ever see my point of view
Will ever see my, will ever see my point of view
Will ever see my, will ever see my point of view

I will get you away from here
In good time, you took it too far, my dear
