

## This Fire

Pete Yorn

Tell me why you're always running off the track  
You never move forward when you're looking back  
You fall in and out of love with yourself  
Makes you wanna crawl back into your shell

And this fire  
This fire's burned out  
I can't blame myself  
If you're walking out

Killing yourself in slow motion  
Waving from the bottom of the ocean  
I'll swim back to land just let me in  
Tell me can we ever begin again?

And this fire  
This fire's burned out  
I can't blame myself  
If you're walking out

Staring at the cold white walls  
Waiting on a slow dissolve  
Don't know how to carry on  
Knowing that moment has gone

Maybe for once in your life  
Maybe for once in your life...

Tell me why you're always running off the track  
You never move forward when you're looking back

And this fire  
And this fire's burned out  
I can't blame myself  
If you're walking out

Staring at the cold white walls  
Waiting on a slow dissolve  
Don't know how to carry on  
Knowing that moment is gone  
And this fire's burned out  
I can't blame myself  
If you're walking out  
This fire  
This fire's burned out  
End this fire...
