

## (I've Been) Taught By Experts

Peter Allen

I've been taught by experts in the art of cruelty  
Now I'm giving lessons free, all it takes is three  
I'll teach you to make friends with pain, that's lesson number  
one  
No, it's not much fun, never was much fun

I've lost my taste for tears so many shoulders ago  
Not sure I still know how to cry  
But if you really want to learn I'd try to satisfy  
Let's begin with goodbye

My body is a battlefield I've got the scars to show  
One for every yes and no, every yes and no  
Every yes, no yes  
I've been taught by experts and here's lesson number three  
Better you get hurt than me, better you than me

I've lost my taste for tears so many shoulders ago  
I'm not sure I still know how to cry, how to cry  
But if you really want to learn I'd try to satisfy  
Let's begin with goodbye

My body is a battlefield I've got the scars to show  
One for every yes and no, every yes and no  
Every yes and no  
I've been taught by experts and here's lesson number three  
Better you get hurt than me, better you, better you than me
