

Just Ask Me I've Been There

Peter Allen

Not many surprises left coming to me
But it makes me smile what I'm turning out to be
I still get something out of music's charms
I still feel something inside someone's arms
Any questions you want answered
Anything you want to know

Just ask me I've been there
I seen angels and sin there
I knocked and they let me in there
I've been through it all

I watched a girl become a woman one day
She was a queen but she had to go away
You know that kind of leaves me all alone
It's good to see her make it on her own
There's a lot of fun in reaping
All the seeds you sow

Just ask me I've been there
I seen angels and sin there
Knock and they'll let you in there
Just mention my name
I've been through it all
I've been through it all

What kind of people need this kind of a place
The reason why is stamped on every face
They need a place to feel their skin is warm
And lots of love is made but no one's born
So before we start this number
If there's something you want to know

Just ask me I've been here
I seen angels and sin here
I knocked and they let me in here
I've been through it all

Just ask me I've been there
I seen angels and sin there
I knocked and they let me in there
I've been through it all

Just ask me I've been here
I seen angels and sin here
I knocked and they let me in here
I've been through it all
