One Step Over The Borderline

Peter Allen

Woke up here, in the desert
Wondering where'd everybody go
Last thing I remember
Is going through hills of snow
Lots of palms in your arms
I went so high I went so low
You could be my oasis
But you're gonna have to go slow
And take it as a warnin'

(Baby, don't push me) Don't push me
One step over the borderline
(I know...) Anything can happen
If you push this old heart of mine
Over the borderline

I've been used and abused
Nobody does it quite like you
Though the pain keeps me sane
I got nothing better to do
Call it love, call it lazy
Just get me through another day
(Tell me lies) Tell me lies, I'm so crazy
I believe whatever you say
Take it as a warnin'

(Baby, don't push me) Don't push me
One step over the borderline
(I know...) Anything can happen
If you push this old heart of mine
Over the borderline

It's over, it's over
I went through you, you went through me
It's over, I'm sober
But will you ever think of me

(Baby, don't push me) Don't push me
One step over the borderline
(I know...) Anything can happen
If you push this old heart of mine

(Baby, don't push me) Don't you push me
One step (over the borderline)
Over the borderline (I know...)
Over the borderline
(If you push this old heart of mine)

(Baby) Baby
(Don't push me) Don't push me
(One step over the borderline)
Over the borderline (I know...)
Anything can happen
If you push this old heart of mine

(Baby, don't push me)
(One step over the borderline)

(I know...) Anything can happen, babe
If you push this old heart of mine

Baby (don't push me)
(One step over the borderline)
