

# See You In The Springtime

Peter Allen

Wait let me get one thing clear  
You're great but we gotta stop right here  
You see my heart has been on a losing streak  
And though this might be love  
I need to recover

I, I shouldn't fall for you  
Not now, not after what I've been through  
I've been burned, so I gotta cool things down  
And though right now I know  
Darling, I'll come around

And I'll see you in the springtime  
When I'm ready to begin again  
I'll be back to love you when the snow's gone  
So hold on  
Save a place inside your heart  
And look for me when lovebirds start to sing

I'll see you in the spring  
In the springtime, time  
But I, I'm gonna take a break  
In a while after this winter's through  
When my lesson is learned  
I will return for you  
And I'll see you in the springtime  
When I'm ready to begin again  
I'll be back to love you when the snow's gone  
So hold on  
Save a place inside your heart  
And look for me when lovebirds start to sing  
I'll see you in the spring  
Then the, then the sun will shine  
Shine on you and me  
When finally I see you

I'll see you in the springtime  
When I'm, when I'm ready to begin again  
I'll be back to love you when the snow's gone  
So hold on  
Save a place inside your heart  
And look for me when lovebirds start to sing  
I'll see you in the spring

I'm gonna see you in the springtime  
When I'm, when I'm ready to begin again  
I'll be back to love you when the snow's gone  
So hold on  
Save a place inside your heart  
And look for me when lovebirds start to sing  
I'll see you in the spring  
I'm gonna see you  
I'm gonna see you  
I'm gonna see you  
I'm gonna see you  
I'm gonna see you  
I'm gonna see you

In the springtime  
In the springtime  
In the springtime  
In the springtime  
In the springtime  
I'm gonna see you  
I'm gonna see you  
I'm gonna see you  
I'm gonna see you
