

# The Other Side

Peter Allen

Mister, can you help me, please?  
I'm looking for a ride  
Over to the other side  
Can you row the boat across?  
Across that great divide  
Over to the other side

Shake the wall down  
Let it fall down  
Let's get into where we been to all along  
Bring everything that we can sing together  
If we sing together we might get a song

Don't you worry when we get there  
I will be your guide  
Over on the other side  
Everybody's just as scared as you so  
Don't you hide over on the other side

Heaven help the fishers  
Who are doomed to digging holes in water  
Help the Captain of the ferry  
Bought his boat but had to sell his daughter  
Every man on every raft on every rapid's run  
You gotta help them  
Cause everyone's deserving of some comfort
