

Tonight You Made My Day

Peter Allen

Woke up this morning and I knew it would be
Just another "why get out of bed day" for me
I caught the coffee and eventually
I was ready for humanity
Got through the hustle in the usual way
Just try to take it slow
Stay out of trouble till I hardly say hello

Don't you know?
Tonight you make my day
Tonight you did
I won't put up a fight
Tonight
Take me all the way
Every night and every day

I don't wanna think about tomorrow, aah
Here is where I'll stay
Tonight
Tonight
You make my day

Maybe I'm crazy but the feeling is right
Come a little closer
Don't turn on the light
I'll pour the wine and put the music on low
I feel like talking sweet and dancing slow
Let's just forget about the world outside, ooh
There's only me and you
I wanna go wherever life can take me to, aah, ooh
If it's with you

Tonight
You make my day
Tonight you did it
I won't put up a fight
Tonight
Take me all the way, take me all
Every night and every day
I don't wanna think about tomorrow, aah, ooh
Here is where I'll stay
Tonight
Tonight
You make my day

And in the morning if you feel this way
Show me a little sign
Cause I never wanna hear you say goodbye, aah, ooh
We'll take our time
Tonight
You make my day
Tonight you did it
I won't put up a fight
Tonight
Take me all the way, take me all
Every night and every day

I don't wanna think about tomorrow, aah, ooh
Here is where I'll stay
Tonight
Cause you make my day

Tonight is just the start of you here in my heart
Tonight
Now that we're together I need you more than ever
Tonight
Tonight is just the start of you here in my heart
From the moment that I met you
I never could forget you
You're everywhere I go
Baby don't you know that tonight
Tonight you make my day
