

V.D.U. Head

Peter and the Test Tube Babies

Had too much acid took too many "E's", just can't remember 1980
's.

V.D.

V.D.U. head.

Sit in the corner stare at the sky, no-
one can see him with his hood pulled up tight.
There's a drum machine ticking in his head, he can't turn it of
f until he's dead.
Pretty little patterns move around his jeans, James Brown's how
ling in his dreams.

Well he fell in love with his V.D.U., his girl has left his cat
has too.
He sits at home with his V.D.U., his face is green he don't wea
r shoes.
