

Don't Be Afraid

Peter Andre

Don't be afraid to love
Don't run away when it's this real
Don't be afraid to love
You don't have to go nowhere
(sing it)
Yeah

You don't have to go nowhere

I know you've been hurt
I know you've been scarred
I know there's probably no love left inside your heart
But if there is
Well that's where we'll start
Filling it up
step by step

Whoever did you wrong
Well they're not me
I'm not gonna fill your heart with guarantees
I got my whole life to make you believe
If you wanna last
All that I ask

Don't be afraid to love
Don't run away when it's this real
Don't be afraid to love
You don't have to go nowhere
Coz I'm not afraid to love
I'm not afraid to say I'm here
Don't be afraid to love
You don't have to go nowhere

I'm gonna wipe away your tears and tell you everyday your beautiful
You'll never question why I'm here
Coz the truth will be right by your side

Whoever did you wrong,
Well they're not me
I'm not gonna fill your heart with guarantees,
I got my whole life to make you believe
If you wanna last,
All that I ask,

Don't be afraid to love
Don't run away when it's this real
Don't be afraid to love
You don't have to go nowhere
Coz I'm not afraid to love
I'm not afraid to say I'm here
Don't be afraid to love
You don't have to go nowhere

I know you've been hurt
I know you've been scarred
I know there's probably no love left inside your heart
But if there is

Well that's where we'll start

Don't be afraid to love
Don't run away when it's this real
Don't be afraid to love
You don't have to go nowhere
Coz I'm not afraid to love
I'm not afraid to say I'm here
Don't be afraid to love
You don't have to go nowhere

Yeah

You don't have to go nowhere
