Nice 'N' Slow

Peter Andre

Say it girl, what's on your mind Are we really for each other? Trust in me and what I have to do Let me touch like no other

Lady take it slow So we can let our feelings grow Give me your lovin' baby I'll be your lover darling

I sad, take it nice and slow So we can last forever more Give me your lovin' I'll be your lover tonight

I wanna take it nice 'n' slow Baby there's so much I wanna show I wanna take it nice 'n' slow, yeah We should take it nice 'n' slow

Baby make it all night long We should take it nice 'n' slow baby

All I know is how I'm feeling now Can I be with you my lady? All I want is just to make it last Without your love i;m going crazy

Lady take it slow So we can let our feelings grow Give me your love I'll be your lover, tonight

Ya know baby, I need your love Give me your love Give me your lovin' baby I wanna know, I wanna know Give me your love, give me your love, tonight
