Not A Love Song

Peter Andre

```
I'll tell ya nothing ent been the same
since i seen ya
yeah i said i really wanna know your name
im pleased to meet ya.

and everybody saying ent no chance
she's off the meter
but i just wanna say your beautiful
and if its cool we can we start a little friendship

This is not a love song but if your thinking what im thinking
i can be convincing baby
This is not a love song but baby i need your attention
This is my confession
cause all i really need is a minute of your time just a simple kiss
That could change your mind
This is not a love, its not love song, this is not a love song

you got a million dollar smile right there
So can i see it.
and everytime that i make you blush you know i mean it
girl i cant get you off my mind
so whats the use in trying, im gonna learn to wait for a little time

Do you mind if i say your beautiful
and if its cool maybe i could be your boyfriend
This is not a love song but if your thinking what im thinking
i can be convincing baby
This is not a love song but baby i need your attention
This is my confession
cause all i really need is a minute of your time just a simple kiss
That could change your mind
This is not a love, its not love song, this is not a love song
Girl your swag is on ten if you need a boy friend ill be that
yeah ill be that
i wont put a title on it, it can be just what you want it
im easy yeah so easy
Cause your the kind of girl that i like
and i make space in my life
So if im blowing up your phone
im coming on a little strong remember this is not a love song

This is not a love song but if your thinking what im thinking
i can be convincing baby
This is not a love song but baby i need your attention
This is my confession
cause all i really need is a minute of your time just a simple kiss
That could change your mind
This is not a love, its not love song, this is not a love song

im not talking about love

cause all i really need is a minute of your time just a simple kiss
That could change your mind
This is not a love, its not love song, this is not a love song
```
