

# The Way You Move (Up In Here)

Peter Andre

Spotlight is catching you I see you across the room  
So many people round you I'm trying make a move  
The centre of attention you've got me so consumed  
You and me can be so hot together

I see you walking your body's amazing yeah  
You're making me wanna step up and take you there  
I know you want it  
Just like I want it  
So girl lets get started and party up in here  
'Cos I like the way you move

The way you move like that (gets my attention)  
When you get down like that (your body's talkin' to me)  
Keep doin' it like that (and not to mention)  
The way you move like that  
It makes me want it, want it

She thinks she's clever but I'm one step ahead of her  
I see right through her but I'm trying to get at her  
She's everybody's question, but I'm the answer  
We both know what we came here to do

I see you walking your body's amazing yeah  
You're making me wanna step up and take you there  
I know you want it  
Just like I want it  
So girl lets get started and party up in here  
I like the way you move baby

The way you move like that (gets my attention)  
When you get down like that (your body's talkin' to me)  
Keep doin' it like that (and not to mention)  
The way you move like that  
It makes me want it oh

It's chemical attraction (chemical reaction)  
When you're looking at me (I'm trying to be the best)  
Girl it's time for some action (action)  
I'm taking you home with me oh

You know you want it  
So come and get it  
You know you want it  
Come and get it  
You know you want it  
So come and get it  
You know you want it  
Come and get it

The way you move like that (gets my attention)  
When you get down like that (your body's talkin' to me)  
Keep doin' it like that (and not to mention)  
The way you move like that  
It makes me want it oh
