

Unconditional

Peter Andre

[Verse 1]

I was already there
Just in another place
Destiny had brought us face to face
What I didn't realise
Is how you would change my life
Turned me from a boy to a man becoming a father before I became a dad
Wish I was there for your first breath
Wish I could've helped you with your first stand
But I'm here now

[Chorus]

Unconditional Love
I finally understand the meaning of it now
Its Unconditional Love
I pray that life will always treat you kind
Unconditional

[Verse 2]

How could a man
Not wanna claim his own
Leaving a mother to raise a child alone
Baby it was destiny
Baby you were made for me
With everything that comes alone, I'll give you my world
I'll take it on
I wish I was there for your first breath
I wish I could've helped with your first stand
But I'm here now

[Chorus]

Unconditional Love
I finally understand the meaning of it now
Its Unconditional Love
I pray that life will always treat you kind

[Middle 8]

When the world doesn't see you like I do
I realise the guy that sees you through
In the night when you cry and you call out my name
You realise there's love surrounding you
Heyyy Yeeeeeeeeeeeah

I was already there
Just in another place
Destiny had brought us face to face
For what I didn't realise
Is how you would change my life
You turned me from a boy to a man
Becoming a father before I became a dad
