

# Gut Feeling

Peter Bjorn and John

Talk, I guess we need to talk  
Talk, I guess we need to talk

I didn't know what I was doing  
And I was doing it way too fast  
It's getting worse than I expected  
You know how it goes now

I guess we need to talk about it  
If we don't want to live without it  
I guess we need to talk about it  
Everybody knows why  
You know how, you know how  
You know how it goes now

You know how it goes now  
Where the wind blows now  
A gut feeling there's something wrong  
Woke up on the wrong side  
We'll be getting so tired  
A gut feeling we're not as strong  
A gut feeling  
A gut feeling there's something wrong

I can't complain when no one's listening  
Need to fix it like it used to be  
I can't understand what got into me  
You know how it goes now

I guess we need to talk about it  
If we don't want to live without it  
I guess we need to talk about it  
Everybody knows why  
You know how, you know how  
You know how it goes now

You know how it goes now  
Where the wind blows now  
A gut feeling there's something wrong  
Woke up on the wrong side  
We'll be getting so tired  
A gut feeling we're not as strong  
A gut feeling  
A gut feeling there's something wrong  
A gut feeling  
A gut feeling we're not as strong

You know how, you know how  
You know how it goes now

A gut feeling there's something wrong  
A gut feeling we're not as strong  
You know how it goes now  
Where the wind blows now  
A gut feeling there's something wrong  
Woke up on the wrong side  
We'll be getting so tired

A gut feeling we're not as strong

I guess we need to talk about it (A gut feeling)

If we don't want to live without it

(A gut feeling there's something wrong)

I guess we need to talk about it (A gut feeling)

If we don't want to

You know how, you know how

You know how it goes now
