

High Up

Peter Bjorn and John

High up, high up
High up, high up

Got a letter from the CEO
Saying sorry but you had to go
Holding back don't wanna make her upset
But all of you is where to go
Going out, even though
I keep on driving till the snow daylight
On the brink of the mountain face
It all comes back again

You take me to the top
High up, high up
Making particular
Don't say you've had enough
Don't stop, don't stop
We're untouchable
Slowly it is love

It doesn't matter where your interest last
Have to find us to approach us
To the skeletons by the side
The grave looks different from across the light
When you fall, once and for all
No need to start up with the shout from the storm
Cause the time is money
I'm a billionaire

You take me to the top
High up, high up
Making particular
Don't say you've had enough
Don't stop, don't stop
We're untouchable
You take me to the top
High up, high up
Making particular
Don't say you've had enough
Don't stop, don't stop
We're untouchable
Slowly it is love

The top
High up, high up

You take me to the top
High up, high up
Making particular
Don't say you've had enough
Don't stop, don't stop
We're untouchable
You take me to the top
High up, high up
Making particular
Don't say you've had enough
Don't stop, don't stop

We're untouchable
Slowly it is love
