

Rusty Nail

Peter Bjorn and John

I can't stop, forgot
Now it's nothing but a, a hard knot
I keep thinking of it, I can't stop
And now it's all my life

I knew something but it's all wrong
I had answers but they're all gone
But I keep working on it, I can't stop
And now it's all my life

I keep getting that rusty nail again all the time
I had dreams, I had dreams where I wanna be all my life
I never knew how much it meant to me all the time
I had dreams, I had dreams where I wanna be all my life
(I keep getting that rusty nail again) all my life

A self-taught, soft spot
Now I know I tried it, full stop
Didn't know about it, but I know
I like it all my life

I'm tangled up now, I know it's never
Just black or white
I can't stop now, it's gonna
Be all my life

I keep getting that rusty nail again all the time
I had dreams, I had dreams where I wanna be all my life
I never knew how much it meant to me all the time
I had dreams, I had dreams where I wanna be all my life
(I keep getting that rusty nail again) all the time
(I keep getting that rusty nail again) all my life
