

# Walk Away

Peter Bradley Adams

I don't have much but these dreams that lead to nowhere  
You don't say much but I can see your disappointment

You don't know what I'm saying, don't know how long I've waited

I'm standing, heart breaking  
And you just walk away

I know you've tried to understand the life I'm living  
But how can you give something you were never given?

You don't know what I'm saying, don't know how long I've waited

I'm standing, heart breaking  
And you just walk away

Those plans you made always came with their conditions  
I cannot change that my heart was never in them

You don't know what I'm saying, don't know how long I've waited

I'm standing, heart breaking  
And you just walk away  
I'm standing, heart breaking  
And you just walk away  
Away  
Away
