

# Take a Good Look

Peter Cincotti

She made a mixtape  
He made a laugh  
Innocence is easy  
When that's all you have

The sunday spent in bed  
Hearing words our bodies said  
We should have let it end  
Right there and then

Take a good look  
and take it all in  
'cause we're nothing like her or like him anymore  
Time's like rain and even love can rust  
Something's changed  
I think it's us

He held her secrets  
Like they were glass  
She thought he had the answers  
Once that nobody has

And it's hard to see it now  
But we never had a doubt  
The life we talked about  
Will all work out

Take a good look  
take it all in  
'cause we're nothing like her or like him anymore  
Time's like rain and even love can rust  
Something's changed  
Come on, you know it's us

Was the truth ever spoken?  
Or the promise is broken?  
Or did I just open  
My eyes?

Someday we just might meet  
On a New York City street  
And we'll see ourselves come back  
Like a snapshot, grey and black

Take a good look  
Take it all in  
'cause we're nothing like her or like him anymore  
Time's like rain and even love can rust  
Something's changed  
I wish it wasn't us.
