

# I Can't Stop The Rain

Peter Criss

This is New York, yo  
It's getting dark

Night falls on the city, finds me all alone  
Makes me wonder should I just go on home  
And I walk up the stairs to see if you're still there  
Would you mind if I found you alone?

Then a cold wind came callin'  
Strange how it knew [Incomprehensible]  
See the night would fade but the pain's gonna stay  
Makes me wonder have you ever made love to me

I can't stop the rain, here it comes again  
Lightnin' strikes across the sky  
Oh oh, I can't stop the rain, here it comes again  
Lightnin' only blinds my eyes

Ain't it sad when the only love I ever had  
Just slips away right through my fingers  
Ain't it a shame when I think of your name  
The only memory I have is pain

I can't stop the rain, here it comes again  
Lightnin' strikes across the sky  
Oh oh, I can't stop the rain, here it comes again  
It takes a witch to curse that goddamn sky

I can't stop the rain, here it comes again  
Lightnin' strikes across the sky  
Oh oh, I can't stop the rain, here it comes again  
'Cause lightnin' only blinds my eyes  
Oh, I can't stop the rain, here it comes again  
'Cause lightnin' only blinds my eyes

I can't stop it
