

The Truth

Peter Criss

Friends against friends
Brother fighting Brothers
When will it all end
Man it sure was a sin

Damn yankees burned
the place down
There wasn't a soul left around

Where you go you're gonna know
Eventually
You'll find the truth
You're gonna find truth

Do you remember the day
When they shot the king down
Where were you my friend
It was the end, war is hell

Damn yankees burned the
place down
There wasn't a soul left around
Where you go you're gonna know
Eventually
You'll find the truth
Where you go you're gonna know
Eventually, eventually,
Where you know you're gonna go
Eventually, eventually
You're gonna find truth
Keep on searching 'cause you
don't know.
