

Keeping Me On File

Peter Doherty

One drop of wine
One pull of the tide
And the sun is darkening

I hope you're keeping me on file
I hope you're keeping me on file
As the days are running away
As the days are slipping away
I hope you're keeping me on file
I hope you're keeping me on file

When you want to know her soul
She has to show you
Enemy and a stranger in the mirror

I hope you're keeping me on file
I hope you're keeping me on file
As the days they are running away
As the days they are slipping away
I hope you're keeping me on file
Like I'm keeping you on file

One drop of wine
One pull of the tide
And the sun is darkening

I hope you're keeping me on file
Like I'm keeping you on file
Oh the days they are running away
And the days they are slipping away
The days they are pulling away
The days they are slipping away
I hope you're keeping me on file
I hope you're keeping me on file
On file
