

Paradise Is Under Your Nose

Peter Doherty

Looking, searching, fighting
I'm hunting for where joy goes
Until at last I find out
That paradise is under your nose
Girls on top of mountains
Where distant rivers flow
Polar bears glaciers and fountains
Paradise is under your nose

It's not out there
Well I should know I looked a lot there
It's not down here
And I searched there too
Don't go too far
Stay right where you are
Joy is wherever you go
And paradise is under your nose

Searching for answers
Lonely readers know
Libraries, and poetry
And paradise is under your nose

It's not out there
Well I should know I looked a lot there
It's not down here
And I searched there too
Don't go too far
(Stay) Stay right where you are
Joy is wherever you go
And paradise is under your nose
Paradise is under your nose

Joy is wherever you go
And you know I'm gonna follow you down
Joy is wherever you go
And you know I'm gonna follow you down
Know I'm gonna follow you down
Joy is wherever you go
Joy is wherever you go
And you know I'm gonna follow you down

'Cause I miss you now my love
I need you now my love
I miss you now my love
I want you now my love
I want you now my love
I miss you now my love
I need you now my love
I want you now my love

I'm gonna follow you down
