

# Travelling Tinker

Peter Doherty

My friend went on  
He went on  
And I walk alone  
He went on  
Nobody to blame  
Just something went wrong  
Could always blame the Devil  
Could blame God

I was working on the mainline  
All my lifelong day  
All my lifelong day  
Love and love alone we find  
To pave and light the way  
Pave and light your troubled way

And now he's gone  
No more lies  
No more fights  
No more freewheeling  
Or double-dealing  
From the travelling tinker  
Got, hook line and sinker

'Cause I was working on the mainline  
All my lifelong day  
All my lifelong day  
Love and love alone we find  
To pave and light the way  
Pave and light your troubled way

My friend went on  
He went on  
I was alone and he went on
